TRACTOR SCHOOL TO OPEN JANUARY 2

Will Be At Patterson and Riley's, West High St., Mt. Vernon

January 2, 1923, will be the opening day for a Farmers' Tractor and Gas Engine School which will be conducted by the State Department of Agricultural Education through the Vocational Agricultural Department of Mt. Vernon High School with the County Agricultural Agent and some farm organizations cooperating at Patterson & Riley's, Mt. Vernon.

The instruction and supervision of the course will be in charge of a specialist whose qualifications are at least two years of tractor operation on his home farm, supplemented by several months intensive training in tractor shops. Enrollment and arrangement details are in charge of J. T. McClure, local high school Agricultural Teacher.

Only those who own or operate a farm tractor are eligible, and the number to be enrolled is limited. The general plan is to have a limited number of farmers, wishing to have their tractors overhauled, place them on the floor during the school. All overhauling will be done under the direct supervision of the instructor in charge and any skilled repair work which may be necessary will be done by the instructor himself.

A limited number of tractor owners, other than those who have machines on the floor, will be enrolled and assigned, as far as possible to the same make of tractor as they own.

The course will be given in the work shop of the firm of Patterson & Riley, which is easily accessible, is centrally located and is well equipped with heating and lighting facilities. The course will extend for fifteen days or three weeks in all the class will meet from one to four o'clock in the afternoon of each day, except Saturday.

There are no strings of any kind attached to the course and the only charge is an enrollment fee of one dollar to pay for soap, towels, waste, etc. used. This fee will be pro-rated and any balance returned.

Those interested and wishing to enroll may call Mr. McClure at the high school or at his home in the evening, 367 Blue, or letters of application may be addressed to the high school. A partial enrollment has been secured and a complete enrollment is desired by next week.
